13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplate horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recomplate in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

1. Encore Operating, L. P. requests the approval to use the following test pressures on the 5M PSI annular preventor to be tested at 250/3500 PSI. The remaining components of the B.O.P. to be tested at 250/5000 PSI.
2. If lost circulation occurs while drilling the 17½" and/or the 12½" hole Encore Operating, L. P. request the approval to aerate the mud system.
3. The information on the Flex hose to the choke manifold is as follows: Manufacturer is Phoenix Beattic (575-234-5927). 4" flex hose rated to 15M PSI test with a working pressure of 10M PSI. The flex hose will go from the mud cross to the choke manifold.

14. I hereby certify that the foregoing is true and correct
