13. Describe Proposed or Completed Operation. Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

Devon Energy Production Co., LP respectfully requests approval to implement contingency plan on the Arenoso 22 Federal 2; attached is the detail for the sundry for the 7" casing that is available:

(see attachment)

Approved with condition that additional cement required on first stage, less than 10% excess. Cement on first stage must circulate, notify BLM, if it does not.

14 I hereby certify that the foregoing is true and correct.

Attachments: Arenoso 22 Federal 2_NOI CP.PDF

Wesley,

Attached is the NOI that you and Don have already discussed... just got back into the office from a meeting. Don had so much detail within his e-mail, I left it as the "attachment" so you would have all of the information. Let me know when it is approved, I'll be checking for it on the fax! ☺
