N/A

Describe Cause of Problem and Remedial Action Taken.*
Produced water tank was struck by lightening during a thunderstorm causing the tank to ignite and the adjacent tank to explode.

Describe Area Affected and Cleanup Action Taken.*
All fluids were contained in the firewall on location. Vacuum truck came in and picked up 200 bbls of water, then backhoe came in and drug location and hauled off all remaining burned equipment and contaminated soil to CRI.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
