13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recomplete horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompletion in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

With consideration given to unsuccessful fishing operations, BOPCO, L.P. respectfully wishes to abandon the wellbore below 11,500' for the above captioned well. At 11,954' the drill string became stuck and fishing operations have effectively removed the majority of the bottom hole assembly to a depth of 11,825'. The remainder of the fish was not recovered. The wellbore will be abandoned by placing 250 sacks of Class II cement, mixed at 17.5 ppg (0.95 cu.ft/sx yield) from 11,325' - 11,825'. The well will then be sidetracked and re-drilled from 11,425' to a total depth of approximately 13,030'.
