13. Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

**Accepted for record
NMOCB**

Notice of Written Order - 09-JA-003W

The TA well approval expired in April 2008 on the above mentioned well. Forest Oil requests approval to run an MIT and extend the TA status for another five years.

The Wellbore will be needed for future use as an injection well to provide support for wells within the Skelly Unit boundary and the offset State "B" Lease. Forest drilled three lease line wells on the State B lease in 2008 and the offset injection support is required to allow these wells to produce at their maximum efficiencies.

Forest Oil is planning work within the Skelly Unit to enhance our waterflood efforts for the 2009

*TA will be Approved
T:11 OCT. 1 2009
THIS will be the
LAST TA APPROVAL
For this well. Place
online or submit
P&A Plans By
OCT 1-2009*

Well last used for INJ. 12/008

14. I hereby certify that the foregoing is true and correct.

Electronic Submission #66727 verified by the BLM Well Information System

32. Additional remarks, continued

budget year. The Skelly #58 well is part of this plan. Success with this plan will create future well work, drilling, increased production and revenue at the Skelly Unit. Work is already being done to replace and upgrade the injection pump at the Unit site as a part of this plan.

Forest Oil will perform a witnessed MIT at the convenience of a representative from your office.
