ADMINISTRATIVE ORDER DHC-3220

Yates Petroleum Corporation
105 South Fourth Street
Artesia, New Mexico 88210

Attention: James H. Hill

RECEIVED

DEC 10 2003

OCD-ARTESIA

Chosa ATR Federal Well No. 1
API No. 30-015-31215
Unit L, Section 8, Township 25 South, Range 26 East, NMPM,
Eddy County, New Mexico
Chosa Draw-Morrow (Gas 74900), and
Wildcat-Atoka (Gas) Pools

Dear Mr. Hill:

Reference is made to your recent application for an exception to Rule 303.A. of the Division Rules and Regulations to permit the above described well to commingle production from the subject pools in the well bore.

It appearing that the subject well qualifies for approval for such exception pursuant to the provisions of Rule 303.C., and that reservoir damage or waste will not result from such downhole commingling, and correlative rights will not be violated thereby, you are hereby authorized to commingle the production as described above and any Division Order which authorized the dual completion and required separation of the zones is hereby placed in abeyance.

The maximum amount of gas which may be produced daily from the well shall be determined by Division Rules and Regulations or by the gas allowable for each respective prorated pool as printed in the Division's Southeast Gas Proration Schedule.

The applicant shall consult with the supervisor of the Artesia District Office of the Division upon completion and testing of the well in order to determine a fixed allocation of production from each of the commingled zones. Upon approval by the Division's Artesia District Office, the applicant shall submit the allocation formula to the Santa Fe Office of the Division.

REMARKS: The operator shall notify the Artesia District Office of the Division upon implementation of commingling operations.

Pursuant to Rule 303.C.(2), the commingling authority granted herein may be rescinded by the Division Director if conservation is not being best served by such commingling.

Approved at Santa Fe, New Mexico on this 7th day of December 2003.
