13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)\*

Devon Energy requests permission for off lease measurement of oil, gas and water production. This is necessary due to the BLM requirement that we drill the well from an off lease surface location in sec. 8, T22S, R24E.

Allocation meters will be set to measure oil, gas and water at the surface location in sec.8. The measured volumes will then be transported via existing gathering system lines to our Indian Basin Central Tank Battery Sec.8, T22S, R24E per Commingling Order #400.
