13. Describe Proposed or Completed Operation. Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

Please note attached plat showing the revised drillsite location.

Due to changing our drilling contractor we were able to construct a smaller well location for JW Drilling Rig #4 to drill this well. We also constructed an entrance on the west side of the well location to allow for easier and safer access for trucks and equipment.

Mr. Scott Pitts of Yates Petroleum Corporation consulted with Mr. Elliot McMaster the surface owner of our proposed changes to the location. Mr. McMaster agreed to the changes.

Thank you.
