13 Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)

As per conversation with Armando Lopez regarding abandonment of this well, the well will be plugged as soon a plugging unit is located operating in the area. This well is located in a very remote area and excessive costs will be avoided by waiting until a unit is available locally.
