Robin ~

I reviewed the C-104 for the recompletion of the above captioned well this morning: the submitted form is being **DENIED** as it is incomplete. You will need to amend and resubmit the C-104 with corrected and complete information: specific fields have been circled on the denied form that need amending. In addition, the following will need to be submitted:

- 1) Provide plat (Form C-102) for new formation (Bone Spring), outlining acreage to be dedicated to well, to NMOCD
- 2) Provide detailed sundry of events, including dates, to plug the well back to the Bone Spring to BLM
- 3) Submit Form 3160-4 (Completion Report) to BLM for the Bone Spring
- 4) Provide complete set of logs run on this well to NMOCD

When all information has been received and approved, we will be able to process the C-104 (Bone Spring) for approval. Until that time, you are ***not authorized to produce*** this well from the Bone Spring.
