13 Describe Proposed or Completed Operation (clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No on file with BLM/BIA. Required subsequent reports shall be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 shall be filed once testing has been completed. Final Abandonment Notices shall be filed only after all requirements, including reclamation, have been completed, and the operator has determined that the site is ready for final inspection.)

BOPCO, L.P. respectfully wishes to request the BLM not to have us reclaim this location as of yet. BOPCO, L.P. wishes to use the pad site location at well #300H for locating the water tanks for the drilling of Poker Lake Unit #308H and #293H wells.

This site will have +/- 200 frac tanks on location to store water for drilling and fracture treatments. The 300 location is a central location for the water storage and water transfer for these operations. Our current drilling schedule has us finishing the the 308H by the end of June, and the 293H by end of August. Completion dates for the removal of water tanks would be around mid October, 2010. Reclamation of the 300H site will begin soon after the completion of these two wells.

* IR to be completed by 1-1-11
