13. Describe Proposed or Completed Operation: Clearly state all pertinent details, including estimated starting date of any proposed work and approximate duration thereof. If the proposal is to deepen directionally or recompleat horizontally, give subsurface locations and measured and true vertical depths of all pertinent markers and zones. Attach the Bond under which the work will be performed or provide the Bond No. on file with BLM/BIA. Required subsequent reports must be filed within 30 days following completion of the involved operations. If the operation results in a multiple completion or recompleat in a new interval, a Form 3160-4 must be filed once testing has been completed. Final Abandonment Notices must be filed only after all requirements, including reclamation, have been completed and the operator has determined that the site is ready for final inspection.)

We request a 90 day extension on final abandonment of this well. We have removed all of our equipment and tilled the location but as of yet the gas company has not removed their equipment. We have notified them this well has been plugged, but have discovered that they have not removed their equipment from several wells which were plugged several years ago. We will notify them again to get this resolved ASAP. We have also just discovered that the property may be a private surface owner. We need time to contact them to get approval for plugging and abandonment of the well.
