Artesia, New Mexico

Dear Sir:

We wish to acknowledge receipt of your letter of April 25th relative to the Cannon Lease Wells as having no allowable since December 31st, 1961.

There was no mention on our Form C-115 reports that these wells were shut-in during the latter months of 1961. There was other periods during 1961 that we did not have any production, as we did not have the help some months during the year to do the pumping. We did do some work on the machinery during these months making readiness for the resumption of pumping, which we did in January and February.

In regard to the signs required by Rule 103, we have had these signs posted there as per the requirements and they have evidently been destroyed. We will see that these signs are replaced.

Will you please send us some copies of the forms C-127 as we do not have this form.

Thanks,

Yours very truly,

ALLEN AND WAGNER OIL CO.,

  
John M. Allen, Partner

JMA:rs

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. This is essential for ensuring the integrity of the financial system and for providing a clear audit trail. The second part of the document outlines the procedures for handling disputes and resolving conflicts. It emphasizes the need for open communication and fair resolution. The third part of the document provides a detailed overview of the current status of the project and the progress made to date. It also identifies the key challenges and the strategies being employed to address them. The fourth part of the document discusses the future plans and the expected outcomes of the project. It highlights the commitment to transparency and accountability throughout the entire process.
