Re: #4 Honolulu State
SE NW Sec. 14-11-27

Dear Mr. Slayton:

We hereby acknowledge receipt of Form C-104 on the subject well showing a change in transporter. However, according to our records, this well was not completed as a producer, but was shut in and later used as a water injection well for some 6 months. Therefore, when it is put on production, it will be necessary for you to file Form C-103 showing the work performed on it, and also Form C-104, Request for Allowable, with all of the completion information thereon.

Very truly yours,

OIL CONSERVATION COMMISSION

W. A. Gressett
Supervisor, District II
