M. Dodd "A" Lease

Well No. 15 is located 2160 ft. from [N] line and 330 ft. from [E] line of sec. 22

SE 1/4 of NE 1/4 (1/4 Sec. and Sec. No.) 17-S (Twp.) 29-E (Range) (Meridian)  
Grayburg - Keely (Field) Lee Eddy (County or Subdivision) New Mexico (State or Territory)

The elevation of the derrick floor above sea level is 3636 ft.

DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

We propose to set 8 5/8" surface casing at approximately 300' and cement to surface with 200 sacks of cement.

We propose to drill to the Grayburg - Keely Zone at approximately 3250', set 5 1/2" casing on top of zone and cement with 250 sacks cement with 4% gel. We propose to sand oil frac the open hole section during completion.

It was necessary to move this location 150' North due to the proximity of State Highway 83 to the South.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
