Jal, New Mexico

Attention: Mr. John A. Disch

Re: Leonard State Com No. 1 E, 22-17-29,
Grayburg Atoka Gas Pool

Dear Mr. Disch:

Enclosed please find one approved copy of Commission Form C-104 showing a change in condensate transporter. Please note that we have added Phillips Petroleum Company to the Gas Transporter section of the form. This corresponds to previous reports. If this change is in error, please so advise us.

Further, it has come to our attention that no acreage dedication plat has been filed for this well since its completion as a gas well. Please file 4 copies of the enclosed Form C-102s with this office. This form should show 160 acres dedicated to the well and identify working and royalty interest owners as specified in Section 2 of the form. This plat need not be signed by a surveyor.

If there are any questions concerning this matter, do not hesitate to call upon me.

Very truly yours,

OIL CONSERVATION COMMISSION

R. L. Stanets
