ATTN: Richard L. Manus
Area Manager

Dear Mr. Manus:

The purpose of this letter is to state our intentions concerning the above named wells. Both wells are presently in temporary abandonment status. The Production Engineer responsible for these wells has been in contact, by telephone, with Jim Amos of your office regarding Phillips' plans. Our intentions are as follows:

Parke "E" #1

Phillips is presently developing a program for testing the integrity of this casing. The casing will be tested in accordance to BLM specifications. We will notify the Carlsbad office at least 24 hours prior to the scheduled test, so that a BLM technician may be present to witness the test.

Parke "E" #2

Phillips is presently developing a program to plug and abandon this well.

Should your office have any questions regarding Phillips' intentions, feel free to contact J. D. Lemons, Production Engineer, at (915) 367-1422.

Sincerely,

J. L. Maples, Assistant
Regulation and Proration
