------	--------------------	---------------------	------	--------	--------------	----------------------	-------------------------	------

It is of the greatest importance to have a complete history of the well. Please state in detail the dates of redrilling, together with the reasons for the well and its results. If any changes were made in the casing, state fully, and if any change was "struck off" or left in the well, give its size and location. If the well has been dynamited, give date, size, position, and number of shots. If pump or bridge were put in, state for what purpose, and of material used, position, and results of pumping or bailing.
