17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

This well was shut in April, 1970, because of low oil production. We now propose to temporarily abandon Abo zone by setting a CIBP at 6925' and loading 5½" casing with treated fresh water. We will hold upper part of hole for possible recompletion in upper zone waterflood operations.
