Attention W. A. Gressett

Dear Sir:

Effective March 3, 1972 the allowable on General American Oil Company of Texas well Beeson "F" #15-C was cancelled for noncompliance with order number R-3221.

Since we have stopped injecting the produced water from the Empire Abo field we will now be able to inject the produced water from our Beeson "F" lease into our Grayburg-Keely flood and request that an allowable of 8 barrels a day be reinstated.

Sincerely yours,

  
W. E. Walter  
District Superintendent
