DETAILS OF WORK

(State names of and expected depths to objective sands; show sizes, weights, and lengths of proposed casings; indicate mudding jobs, cementing points, and all other important proposed work)

On February 3, 1963, we ran 2134 feet of 7" casing in this well, landing same to shut off water encountered in the red sand 2067' to 2105'. Tests showed complete water shut off. Drilling was continued.

I understand that this plan of work must receive approval in writing by the Geological Survey before operations may be commenced.
