17. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

This well was temporarily abandoned in January, 1966 and was abandoned because it had reached the economic limit. Due to improving economic conditions, we would like to retain the temporary abandonment status until the well can be recompleted. We plan to recomplete the well in the Grayburg San Andres within the next 12 months.

The present condition of the well is such as to prevent damage to the producing zone, migration of hydrocarbons or water, the contamination of fresh water or other natural resources, or the leakage of any substance at the surface.
