Instructions

General: This form is designed for submitting proposals to perform certain well operations, and reports of such operations when completed, as indicated, on Federal and Indian lands pursuant to applicable Federal law and regulations, and, if approved or accepted by any State, on all lands in such State, pursuant to applicable State law and regulations. Any necessary special instructions concerning use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either as shown on the form or will be issued by, or may be obtained from, the local Federal and/or State office.

Item 4: If there are no applicable State requirements for locations of Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal office for specific instructions.

Item 17: Proposals to abandon a well and subsequent reports should include such special information as is required by local Federal and/or State offices. In addition, such proposals and reports should include reasons for the abandonment of the well, or other zones with present productive zones, or other zones with present significant fluid contents not sealed off by cement or otherwise; details (top and bottom) and method of placement of cement plugs; mud or other material placed below, between and above plugs; amount, size, method of packing of any casing liner or tubing pulled any depth to top of any left in the hole; method of closing top of well; and date well site conditioned for final inspection looking to approval of the abandonment.
