

ARCHEOLOGICAL RESOURCES

On February 13, 1990, Pecos Archeological Consultants performed a literature search to determine if any archeological sites had already been recorded in the vicinity of the project area. Current BLM files and the National Register of Historic Places were consulted in this endeavor. Seven previously-recorded sites were found to occur in the project area. These are LA Site No.s:

LA 43693--this site is located 300 m from the easement.
LA 43692--this site is located 300 m from the easement.
LA 39153--this site is located 500 m from the easement.
LA 48974--this site is located 800 m from the easement.
LA 39152--this site is located 200 m from the easement.
LA 39181--this site is located 300 m from the easement.
LA 47675--this site is located 800 m from the easement.

None of these sites were encountered during this project

Observed Archeological Manifestations:

No archeological resources were recorded during this survey.
