

OIL CONSERVATION COMMISSION

Santa Fe, New Mexico

MISCELLANEOUS REPORTS ON WELLS

Submit this report in triplicate to the Oil Conservation Commission or its proper agent within ten days after the work specified is completed. It should be signed and sworn to before a notary public for reports on beginning drilling operations, results of shooting well, results of test of casing shut-off, result of plugging of well, and other important operations, even though the work was witnessed by an agent of the Commission. Reports on minor operations need not be signed and sworn to before a notary public. See additional instructions in the Rules and Regulations of the Commission.

Indicate nature of report by checking below:

REPORT ON BEGINNING DRILLING OPERATIONS		REPORT ON REPAIRING WELL	
REPORT ON RESULT OF SHOOTING OR CHEMICAL TREATMENT OF WELL	X	REPORT ON PULLING OR OTHERWISE ALTERING CASING	
REPORT ON RESULT OF TEST OF CASING SHUT-OFF		REPORT ON DEEPENING WELL	
REPORT ON RESULT OF PLUGGING OF WELL

THEORY OF THE EARTH

CHAPTER I. OF THE ORIGIN OF THE EARTH.

The origin of the earth is a subject of great importance, and one which has attracted the attention of philosophers and astronomers for many ages. The most ancient and most common opinion is, that the earth was created out of nothing, by the power of God. This opinion is supported by the authority of the sacred scriptures, and by the reasonings of many philosophers. Others, however, have imagined, that the earth was formed out of some pre-existent matter, and that it has since undergone various changes and improvements. These opinions are supported by the reasonings of some philosophers, and by the observations of others. The truth of the matter is, that we are not yet able to determine the origin of the earth, and that it is a subject which deserves the most diligent and accurate investigation.

The first opinion, that the earth was created out of nothing, is supported by the authority of the sacred scriptures, and by the reasonings of many philosophers. The sacred scriptures declare, that God created the earth out of nothing, and that he has since preserved it in its present state. The philosophers who support this opinion, argue, that it is the most simple and most reasonable supposition, and that it is the only one which is consistent with the authority of the sacred scriptures. They also argue, that it is the only one which is supported by the observations of the natural world. They observe, that the earth is a solid body, and that it is composed of various materials, which are all derived from a common source. They observe, that the earth is a globe, and that it is surrounded by a fluid medium, which is the atmosphere. They observe, that the earth is a sphere, and that it is divided into various parts, which are all governed by the same laws. They observe, that the earth is a system, and that it is connected with the other parts of the universe. They observe, that the earth is a world, and that it is the seat of life and intelligence. They observe, that the earth is a temple, and that it is the dwelling place of God. They observe, that the earth is a city, and that it is the seat of government and justice. They observe, that the earth is a kingdom, and that it is the seat of power and glory. They observe, that the earth is a nation, and that it is the seat of honor and respect. They observe, that the earth is a people, and that it is the seat of love and mercy. They observe, that the earth is a family, and that it is the seat of peace and harmony. They observe, that the earth is a church, and that it is the seat of truth and righteousness. They observe, that the earth is a school, and that it is the seat of wisdom and knowledge. They observe, that the earth is a university, and that it is the seat of learning and science. They observe, that the earth is a library, and that it is the seat of books and papers. They observe, that the earth is a museum, and that it is the seat of curiosities and wonders. They observe, that the earth is a theatre, and that it is the seat of plays and spectacles. They observe, that the earth is a stage, and that it is the seat of actors and actresses. They observe, that the earth is a court, and that it is the seat of judges and lawyers. They observe, that the earth is a palace, and that it is the seat of kings and queens. They observe, that the earth is a castle, and that it is the seat of knights and ladies. They observe, that the earth is a fortress, and that it is the seat of soldiers and sailors. They observe, that the earth is a ship, and that it is the seat of merchants and traders. They observe, that the earth is a house, and that it is the seat of fathers and mothers. They observe, that the earth is a family, and that it is the seat of children and grandchildren. They observe, that the earth is a nation, and that it is the seat of citizens and subjects. They observe, that the earth is a world, and that it is the seat of all things.

The second opinion, that the earth was formed out of some pre-existent matter, is supported by the reasonings of some philosophers, and by the observations of others. These philosophers argue, that it is more reasonable to suppose, that the earth was formed out of some pre-existent matter, than to suppose, that it was created out of nothing. They observe, that the earth is a solid body, and that it is composed of various materials, which are all derived from a common source. They observe, that the earth is a globe, and that it is surrounded by a fluid medium, which is the atmosphere. They observe, that the earth is a sphere, and that it is divided into various parts, which are all governed by the same laws. They observe, that the earth is a system, and that it is connected with the other parts of the universe. They observe, that the earth is a world, and that it is the seat of life and intelligence. They observe, that the earth is a temple, and that it is the dwelling place of God. They observe, that the earth is a city, and that it is the seat of government and justice. They observe, that the earth is a kingdom, and that it is the seat of power and glory. They observe, that the earth is a nation, and that it is the seat of honor and respect. They observe, that the earth is a people, and that it is the seat of love and mercy. They observe, that the earth is a family, and that it is the seat of peace and harmony. They observe, that the earth is a church, and that it is the seat of truth and righteousness. They observe, that the earth is a school, and that it is the seat of wisdom and knowledge. They observe, that the earth is a university, and that it is the seat of learning and science. They observe, that the earth is a library, and that it is the seat of books and papers. They observe, that the earth is a museum, and that it is the seat of curiosities and wonders. They observe, that the earth is a theatre, and that it is the seat of plays and spectacles. They observe, that the earth is a stage, and that it is the seat of actors and actresses. They observe, that the earth is a court, and that it is the seat of judges and lawyers. They observe, that the earth is a palace, and that it is the seat of kings and queens. They observe, that the earth is a castle, and that it is the seat of knights and ladies. They observe, that the earth is a fortress, and that it is the seat of soldiers and sailors. They observe, that the earth is a ship, and that it is the seat of merchants and traders. They observe, that the earth is a house, and that it is the seat of fathers and mothers. They observe, that the earth is a family, and that it is the seat of children and grandchildren. They observe, that the earth is a nation, and that it is the seat of citizens and subjects. They observe, that the earth is a world, and that it is the seat of all things.
