Re: Continental State Well No.
J, Sec. 7, T-19-S, R-29-E

Dear Mr. Jones:

The last report received on the subject well was July 2, 1952, which was a Notice of Intention to Plug. A recent field inspection indicates that this well was never plugged, that there is no marker, the pits have not been leveled, and the area has not been cleared.

If you do not plug this well within thirty days, we are going to make demand that your surety company, Maryland Casualty, plug this well.

Very truly yours,

Oliver E. Payne
General Counsel

OEP:bp

CC-Mr. M. L. Armstrong
