13. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Ran mechanical integrity test 11-14-94. RU pump truck and load csg w/water. Pressure tested csg to 500 psi for 30 mins. OK. Chart attached. Witnessed by J. D. Whitlock (BLM).

Our injection facilities do not have sufficient capacity to handle additional produced water. We are presently preparing to expand these facilities and this work is expected to be completed in six months. At that time, the well will be returned to production. Therefore, we request TA status for six months.
