Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Yates perforations in this well (2720-2856) have been producing 100% water and only a trace of oil since November, 1969. We propose to squeeze cement these perforations w/75 sx Class C cement; WOC 18 to 24 hours; drill out and pressure test squeeze job to 1000#; recover retrievable bridge plug from 2940' and make well a rod pumper from Queen perforations 3375-3909'.
