This well formerly produced from the Yates pay 2700', the same pay as No. 4 McFaddin which is still producing. It has been off of a producing status for several years. We have intended for several years to deepen to the Queen or Grayburg. We are at present contemplating joining the water flood of the Atlantic Refining Company to be initiated before July 1, 1966, on the Kechane-Saunders-Welch & Iverson Hinkle lease to the north of this well.
