Carper Drilling Company, Inc. 200 Carper Building Artesia, New Mexico

#### Centlemen:

Your Notice of Intention to Drill Malone well No. 1 (copy attached) in the SNAM sec. h, T. 19 S., R. 31 E., N.H.P.M., Eddy County, New Mexico, lease New Mexico 05298, has been forwarded to this office for approval. A pertion of the original lease lies within the "Potash Area" designated by the Secretary of the Interior and therefore the lease is subject to the stipulation that all wells drilled to formations above the base of the Delaware send or to a depth above 5,000 feet, whichever is the leaser, must be approved by the Director of the Geological Survey.

Pursuant to authority delegated to me by the Director, U. S. Geological Survey on June 7, 1960, I hereby approve the Notice of Intention to Drill the Malone well No. 1 to a depth of approximately 3450 feet to test the Queen formation.

Please notify the District Engineer, U. S. Geological Survey, Pramer U, Artesia, New Mexico, in sufficient time for a representative to witness all comenting operations.

Very truly yours,

Parl C. Trajuich, for JOHN A. ASTREMSON

Regional Oil and Gas Supervisor

### INSTRUCTIONS FOR COMPLETION OF FORM C-128

- 1. Operator shall furnish and certify to the information called for in Section A.
- 2. Operator shall outline the dedicated acreage for both oil and gas wells on the plat in Section B.
- 3. A registered professional engineer or land surveyor registered in the State of New Mexico or approved by the Commission shall show on the plat the location of the well and certify this information in the space provided.
- 4. All distances shown on the plat must be from the outer boundaries of the Section.
- 5. If additional space is needed for listing owners and their respective interests as required in question 3 of Section A, please use space below.
