1936

REPORT OF THE COMMISSION ON THE OIL INDUSTRY

The Commission on the Oil Industry was organized by the New Mexico Legislature in 1934 to study the oil industry in this State and to make recommendations for its better regulation.

The Commission has the honor to submit to the Legislature its report on the work of the past year.

The Commission has held many public hearings and has received many suggestions from the public.

The Commission has also held many public hearings and has received many suggestions from the public.
