Attention: Mr. M. L. Armstrong

Dear Mr. Armstrong:

Please find enclosed two copies of my sample record on the Len Mayer No. 4 Barbara. I did not run an electrical or radioactivity log on this well and, therefore cannot furnish same as required by Rule 1108 of the Oil Conservation Commission.

Also pertaining to your letter of March 27, 1961 regarding the plugging of the Len Mayer-Jack McClellan No. 1 Machris State located in the NE/4 NE/4 of Section 32, T-19-S, R-31-E. please be advised that I will take care of cleaning up the location. Please find enclosed additional copies of form C-105 pertaining to the plugging of the well. Until I have use for the tubing and casing pulled from the well, I am leaving it on location. I anticipate using this tubing and casing in the very near future in the completion of another well and at that time will move it off the location.

Very truly yours,

Len Mayer
