Temporary Abandonment

XX

(NOTE: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

17. DESCRIBE PROPOSED OR COMPLETED OPERATIONS (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.) \*

This well was approved for T. A. November 7, 1974.

Because of excessive cost, the extensive remedial work to be done for secondary response has not been done. It is still planned for future operations.

Also, as this well is on the edge of a large waterflood area, we feel the well should be held for future tertiary production or injection.

Therefore, we request an extension of the temporary abandonment.
