Dear Mr. Gressett:

As provided in our Subsequent Report of Plug and Abandonment on NM OCC form C-103 dated October 11, 1967, we promise and agree to complete, as soon as the drilling equipment of Contractor Leatherwood is moved-off location, the surface work on this well, consisting of:

1. Install dry-hole marker as required by State regulations.
2. Level pits and finish cleaning-up location.
3. Notify your office when work is finished and location is ready for inspection.

We regret the unusual conditions that cause this temporary delay in completing the surface restoration and location marker, but do appreciate very much your helpful consideration in allowing us the additional time within which to do the work.

Yours very truly,

ERNEST A. HANSON
