Re: Lowe State wells No. 1 ⁶, 2 ⁴, 11-19-28
& Lowe B State well No. 3 A, 4-19-28
Eddy County, New Mexico

Gentlemen:

It is our understanding that the Lowe State wells No. 1 & 2 have been plugged and abandoned. However, this office has not received plugging reports as required. Please file Form C-103, for each well, showing the manner in which the individual wells were plugged.

Further, this office has received no report for the Lowe B State No. 3 well since that showing the running of the 7 inch casing. Form C-103 showing all information relative to the setting of the production casing and Form C-105 showing all required information must now be filed. As this well has been shut in for about 6 months, your future plans for the well should be outlined on a separate Form C-103. Three copies of Form C-103 and 6 copies of Form C-105 are required.

Your early attention to these matters will preclude the necessity for further action on our part.

Very truly yours,

OIL CONSERVATION COMMISSION
