ARTESIA, OFFICE

STANDARD OIL COMPANY OF TEXAS
3610 Avenue S
Snyder, Texas 79549

Att: Mr. Bob Davidson

Gentlemen:

The enclosed film and five folders show the results of our Gyroscopic Multishot Directional Survey No. SU-3-6736 and our Magnetic Multishot Directional Survey No. MS-6764 performed on the Smith Federal lease Well No. 1, in the Malco Field, Eddy County, New Mexico on October 1, 1969 and November 14, 1969. These surveys were run from surface to a depth of 7755 feet.

One of these folders contains the original of the computation sheets, field data sheets, horizontal projection, and certification. Bottom hole location has been plotted in relation to surface location on the certified plat furnished by you and copies of same have been included in all folders.

All copies have been certified and a copy is being sent by Registered Mail to the New Mexico Oil Conservation Commission, Box 2088, Santa Fe, New Mexico 87501 and at Drawer 22, Artesia, New Mexico 88210.

It has been a pleasure to perform this service for you.

Very truly yours,

SPERRY-SUN WELL SURVEYING COMPANY

Carl Kisinger, Jr.
