Instructions

General: This form is designed for submitting proposals or petitions concerning well operations, and reports of such operations when can be used, as indicated, on Federal and Indian lands pursuant to applicable Federal law and regulations, and, if approved or accepted by any State, on all lands in such State, pursuant to applicable State law and regulations. Any necessary special instructions concerning the use of this form and the number of copies to be submitted, particularly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the local Federal and/or State office.

Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Consult local State or Federal office for specific instructions.

Item 17: Proposals to abandon a well and subsequent reports of abandonment should include such special information as is required by local Federal and/or State offices. In addition, such proposals and reports should include reasons for the abandonment; data on any former or present productive zones, or other zones with present significant fluid contents not subject to the consent or oil consent decrees (for and before) and method of movement of cement plugs; and/or other material placed below, between and above plugs; cement, steel, method of setting of any casing, liner or tubing placed and the reason to top of any hole in the hole; method of closing top of well; and date well site conditioned for final long-term action leading to approval of the abandonment.
