

INSTRUCTIONS

Complete this form is designed for submitting a complete and correct well completion report and log on all types of lands and leases to either a Federal or State agency or to applicable Federal and/or State laws and regulations. Any necessary special instructions concerning the use of this form and the manner of completion are given clearly with regard to local, area, or regional procedures and practices, either are shown below or will be issued by, or may be obtained from, the appropriate agency. See instructions on items 22 and 24, and 33, below regarding separate reports for separate completions.

Item 1: Submit to the time this summary record is submitted, copies of all currently available logs (drillers, geologists, sample and core analysis, all types of logs, etc.) and directional surveys, should be attached hereto, to the extent required by applicable Federal and/or State laws and regulations. Attachments should be labeled on this form, see item 35.

Item 4: If there are no applicable State requirements, locations on Federal or Indian land should be described in accordance with Federal requirements. Complete State or Federal requirements for specific instructions.

Item 12: Indicate which elevation is used as reference (where not otherwise shown) for depth measurements given in other spaces on this form and in any attached logs.

Item 22 and 24: If this well is completed for separate production from more than one interval zone (multiple completion), so state in item 22, and in item 24 show the interval zone (top(s), bottom(s) and name(s) (if any) for only the interval reported in item 33. Submit a separate report (page) on this form, adequately identified, for each interval and interval to be separately produced, showing the additional data pertinent to such interval.

Item 29: Submit a separate completion report on this form for each interval to be separately produced. (See instruction for items 22 and 24 above.)

27. SUMMARY OF POROUS ZONES: LIST ALL IMPORTANT ZONES OF POROSITY AND CONTENTS THEREOF: CORED INTERVALS; AND ALL DRILL-STEM TESTS, INCLUDING EARTH INTERVAL TESTED, CUSHION USED, TIME TOOL OPEN, FLOWING AND SHUT-IN PRESSURES, AND RECOVERIES				38. GEOLOGIC MARKERS
