Re: Nix #1, 9-19-26
Eddy County, N. M.

Gentlemen:

An inspection of the subject well was made on December 16, 1974, and revealed that marker had not been installed.

Also, rat and mouse holes were open and pits had not been levelled.

Please give this your early attention and as soon as work has been done, please notify this office so that final P & A inspection may be made.

Sincerely yours,

OIL CONSERVATION COMMISSION

L. A. Mermis
L. A. Mermis
Oil & Gas Inspector
