Re: Osage Boyd Com.
#1-E, 15-19-25
Eddy County, N. M.

Dear Sirs:

The above location was inspected on 12-2-74 and found that the drilling pits have been cut, but not levelled.

Also, the section number is not on the marker, otherwise the marker is fine.

When the marker has been corrected and location has been levelled, please notify this office for final inspection.

Sincerely yours,

OIL CONSERVATION COMMISSION

L. A. Mermis
