☐ Dispose Water

(Note: Report results of multiple completion on Well Completion or Recompletion Report and Log form.)

Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work. If well is directionally drilled, give subsurface locations and measured and true vertical depths for all markers and zones pertinent to this work.)*

Yates Petroleum Corporation respectfully requests permission to change BOP system from 3M to 2M configuration. Due to height of substructure, it is difficult to accomodate Double Ram Preventors and Annular Preventor. BOP will consist of double ram preventors rated to 3000#. Choke manifold and lines will be secured.

Additionally request variance on BOP test pressure: request testing BOP to 1500# with rig pump.

I hereby certify that the foregoing is true and correct
