Oil Conservation Commission
Santa Fe, New Mexico

October 9, 1941

Mr. William Dooley
P. O. Box 428
Artesia, New Mexico

Re: William Dooley & Ira C. Dixon. \$1000 Bond.
18-20S-27E; Martin Yates, Jr., and Helen M.
Bowers, Sureties. Filed 3-5-38.

Dear Mr. Dooley;

In response to your letter of October 7th, while the well file shows that the log is filed and approved Notice of Intention to Plug the well noted in the caption, yet the final matter necessary for the releasing of said bond has not been supplied--which is to say the approved Report of Plugging upon Form C-103.

Therefore, in order finally to dispose of the matter so as to permit the cancellation of the bond noted in the caption you are herewith sent a set of Form C-103.

When you execute this report, please submit it to Mr. Roy Yarbrough, Oil and Gas Inspector at Hobbs, for his consideration of approval. When Mr. Yarbrough approves such report and a triplicate is sent to the Santa Fe Office, the bond in question will then be eligible for cancellation.

It is the Commission's purpose to clear the records of all the old bonds with personal sureties and to put the records straight on wells that actually have been properly plugged. Your cooperation in this matter will be greatly appreciated.

Very truly yours,
Oil Conservation Commission
