Dear Mr. Curry:

I notice there has been quite a lot of correspondence on your Binkley and Curry Well No. 1 Murray in Lot 14 of Section 1-21S-27E, Eddy County. However, there isn't anything in the file stating the present status of the well at the present time. Please let us know about this well as soon as possible.

Very truly yours,

OIL CONSERVATION COMMISSION

I Have contacted E.D. Burgett of Carlsbad and he is interested in completing this well as soon as his rig is available, due to the excellent location near production on three sides. In case he does not take over the well, I shall have it plugged as soon as possible as I am not in a position to finish drilling myself.

Sincerely

Charles C. Curry
