12. Describe Proposed or Completed Operations (Clearly state all pertinent details, and give pertinent dates, including estimated date of starting any proposed work) SEE RULE 1103.

3/8/91 The Riggs #6 was produced four hours after a gas engine had been placed on the pumping unit and repairs to existing production facilities made;

Production was 22 bbls oil and 44 bbls water in four hours;

Production will be limited until a replacement lease water disposal well is approved, drilled, and activated; presently produced water will be stored in a 500 bbl. frac tank until either the disposal well becomes a reality or the water is hauled to a proper disposal facility with proper prior approval.

A reinstatement of allowable of accumulations up to 180 bbls oil per month is requested hereby, daily limitation being the hours pumped, to allow futher equipment checkout and establish well capability.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
