Dear Sir:

I am writing you in regard to a well drilled by you in Eddy County, New Mexico. This well is in SW $\frac{1}{4}$ of NE $\frac{1}{4}$, S15-T21S-R27E. The C-101 shows this well to have been spudded 6-30-34 and drilled to TD 1553'. Then on 2-12-45 you were granted permission to deepen well to 2100'.

The scout report shows it was deepened to 2350'. We feel this well should be plugged as soon as possible.

Yours very truly,

OIL CONSERVATION COMMISSION

M. L. Armstrong,
Supervisor, District No. 2
