Dr. E. H. Wells
State Geologist
Socorro, New Mexico

Dear Dr. Wells: Re: G. V. Hoopengartner letter.

This is in reply to your letter of March 1st in which you asked for information about a well drilled by the A. & M. Petroleum Company in Sec. 15, T. 21 S., R. 27 E.

The only report Magruder and A. W. Rutter filed for this well is form SG-101, the original I am enclosing herewith for your files.

This well was spudded on 7-31-34 and at the present time it is shut down at 1553' in hard lime. They are waiting for orders.

They have not filed a well log as yet as there is a possibility of them drilling deeper. However, I am enclosing a copy of a log I received at Scout check, which is none too accurate.

Very truly yours,

FJV:t

Encls.

State Oil & Gas Inspector.
