Mr. Roy Yarbrough,  
State Oil & Gas Inspector,  
Hobbs, New Mexico.,

Dear Sir:-

I have your letter of the 7th and am inclosing form C-102 in triplicate as per instructions, for plugging well in Sec 15, 21S-27E Eddy County, New Mexico. As per advice to you, we had 4' of oil saturated lime, 576' to 580', but upon drilling 3' deeper, encountered sulphur water, which we could not shut off, after putting in lead wool and some cement in bottom of hole.

Thanking you for granting permission to plug, after which I will furnish you with the other reports, requested in your letter, I am,

Yours very truly,

RSMagruder:B
