May 2nd, 1945.

Mr. Neil H. Wills,  
Box 475,  
Roswell, New Mexico.

Dear Mr. Wills:

This will acknowledge receipt of copy of your letter of April 28th to Mr. F. J. Vesely, State Oil and Gas Inspector, Carlsbad, New Mexico.

If the well in question is to be abandoned at approximately the present depth, I believe we can waive the bond requirement, particularly so if we are given assurance that the well will be properly plugged under the direction of Mr. Vesely.

Very truly yours,

E. H. Wells  
State Geologist

ERW/K  
cc:-F. J. Vesely.

ed of all subjects at this stage. The  
major themes of this presentation are:  
-theoretical model and review how now evaluated;  
-some basic results from switch as visuobiological  
technique and some more recent review how switch and  
-visuobiology can be applied to other subjects.
