Dr. E. H. Wells
State Geologist,
Santa Fe, New Mexico

Dear Sir:

Enclosed is a note left here by J. D. Hunter. If there is not a Bond on this well we might be able to trade the casing left in the well for a plugging job, as Mr. Taylor and Mr. Agerton think the well is leaking water into the Potash bearing formations.

If you think it is advisable I will try to make some arrangements to have this well plugged.

Yours very truly,
