APR 2 '97

Wrong Form

BLM
ROSWELL, NM

Respectfully request variance of requirement of back pressure valve on vent line on fiberglass gun barrel. The well production increased to an average of approximately 1.5 BOPD after recent installation of the gun barrel. Installing a back pressure valve on the vent line would possibly lead to a tank rupture and result in an environmental hazard.

I hereby certify that the information above is true and complete to the best of my knowledge and belief.
